BIGHORN

BY HEARTLAND

The King of the Mountain

A New Level of Luxury

The stunning new BIGHORN by Heartland Recreational Vehicles is nothing short of spectacular - in both it's luxurious interior appointments and outstanding design concepts. Featuring real hardwood cabinets, including stiles, oil-rubbed bronze hardware and lighting, luxurious furnishings, flush-floor slide-outs and an abundance of interior and exterior storage space, the BIGHORN is truly a fifth wheel that is taking affordable luxury to the next level.

The King of the Mountain

You'll appreciate the hand-crafted touch found in each BIGHORN, like the stately slide-out fascia moldings that surround every slide room.

Comfortable Living

Large, comfortable recliners separated by a hardwood coffee table highlight the spacious BIGHORN living room. A 26" LCD flat screen TV with home theatre system provides high quality entertainment, while the desk and roomy countertop are there when it's time to work. Decorative glass inserts add a residential touch to the room, while hard-sided window valance boxes frame the oversize windows which provide an excellent view of your surroundings.

The LCD TV swivels out from the cabinet for increased viewing angles, while the space behind the TV features shelving for all of your movies and music.

The hardwood dinette table features a pull-out extension and features storage inside, as well as the dinette chairs, providing a great place to store games or valuables.

BIGHORN

The kitchen in the 3055 is highlighted by name brand appliances, solid-surface countertops that feature a 10-year warranty, elegant crown molding, and an abundance of base cabinet and overhead storage areas. The waterfall edge on the countertops is an high-end feature normally reserved for motorhomes.

The hardware in the BIGHORN is oil-rubbed bronze, just one of many luxurious features that set this coach apart from the crowd.

Every BIGHORN features a mirrored entry closet that houses all of the coaches mechanical systems and swtiches, which are out in plain sight in most competitive coaches. This closet offers a great place for storing jackets and other items such as umbrellas or cleaning supplies.

Storage Galore!

You'll never lack for storage space in a BIGHORN fifth wheel! That's because we listen to our customers and continue to maximize every possible square inch of interior space to provide the most storage possible. With all of this storage space, food preparation is a breeze and you will never have to compromise on what you choose to serve to your family or guests. That's what true, extended stay camping is all about - enjoying the luxuries of home - without compromise.

The half-time convection microwave oven provides you with the ability to crisp baked goods, including making pies and cakes.

Full Extension!

BIGHORN's steel ball-bearing drawer guides not only provide the smoothest possible operation, but are able to hold more than 30 lbs. as witnessed by this cinder block! You will not find any of the cheap, import drawer guides like the competition offers on our coaches! These deeper drawers are designed to come all the way out, past the cabinet faces, so you will not have to scrape your knuckles trying to get to the back of them. It's simply the best drawer system in the industry!

The deep, solid-surface kitchen sink features built-in sink covers and a flexible sprayer faucet.

BIGHORN

The residential feel of the BIGHORN bedroom suite is accomplished by features such as our custom-built hardwood dresser with six oversized drawers and additional shelf storage, as well as a large overhead cabinet with decorative glass inserts and a built-in TV cabinet.

The large lav base and mirrored medicine cabinet provide great storage opportunities, while the separate commode room features both heat and A/C vents, as well as a porcelain commode and built-in overhead storage.
The large, marbelized neo-angle shower features a glass door and oil-rubbed bronze fixtures, including a hand-wand spray head and overhead skylight.

A Relaxing Retreat Fit for a King

Whether it's retreating from a long day or just lounging around, the BIGHORN's king bed (most models) offers incredible comfort. Framed by elegant fascia and stunning headboard, the bed slide features dual nightstands and windows for great cross-ventilation. Overhead reading lights and soft decorative window treatments add to the feel of elegance. The walk-in front wardrobe is framed with decorative hardwood and features built-in shoe storage and a washer/dryer prep.

A real porcelain sink - not cheap plastic like the others.

An adjustable hand-sprayer faucet in the shower with the oil-rubbed bronze finish.

A nicely finished clothes hamper can also double as a place to store shoes, boots or other items.

Speakers in the bedroom allow you to listen to the TV or stereo.

With electrical outlets and video hook-ups, there's room in here for a mini-fridge, a TV and other electronics for access under your awning at a tail gate or when just sitting around the campsite.

The Largest Storage in It's Class!

BIGHORN's new drop-frame design provides for over 140 cubic feet of the cleanest pass-through storage ever accomplished in a fifth wheel. Featuring Heartland's durable vinyl diamond-plate finish that keeps your valuables in place during transit, this extra-large compartment can house all of these storage bins and more!!

BIGHORN features four elegant interior decors this year...

Camel Suede

Burgundy Chestnut

Emerald Patina

Majestic Blue

Trail-Air's EQUAL-FLEX *rubber-cushioned equalizer suspension system is standard on every BIGHORN and provides an incredibly smooth ride.*

Universal Docking Center

One of Heartland's most famous innovations, this docking center holds all of the coach's system hook-ups including the satellite; phone; cable; city water fill; black tank flush; exterior shower with hot & cold; liquid soap dispenser and all-tanks pull handles (no more crawling under slide-outs to reach the handles!).

STANDARD FEATURES:

HAND CRAFTED CABINETRY
- All **HARDWOOD** Cabinetry Throughout (Including Stiles)
- Amish-Crafted Natural Hardwood Cabinet Doors and Drawers
- All Cabinet Frames are Pre-Drilled, and Screwed Together - not stapled

BIGHORN

PATENT-PENDING IMPROVED TURNING RADIUS –

Heartland's improved turning radius design provides up to 30% increased turning capabilities for today's popular short-bed (6'), extended-cab trucks – without the need for an expensive slider hitch! Enjoy the added convenience and safety of knowing you can make tight turns in traffic or at the campground.
