Generations of family fun.

# WHITE HAWK

## 2015 ULTRA LITE TRAVEL TRAILERS BY JAYCO

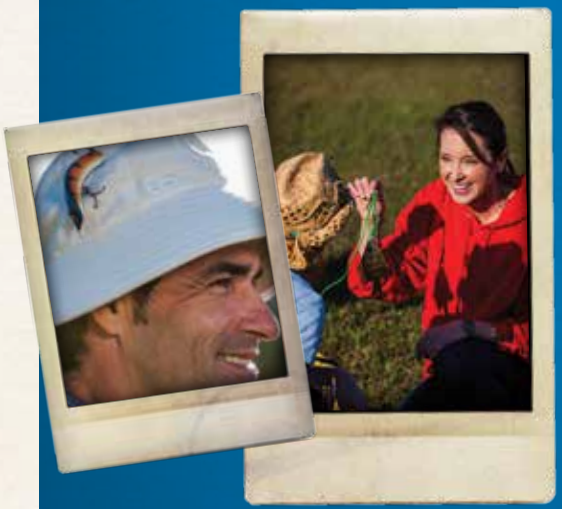

This 1987 brochure cover inspired our 2015 literature.

2 YEAR WARRANTY

# BUILT TO broaden YOUR IDEA OF FAMILY FUN

WHITE HAWK ULTRA LITE WHITE HAWK SUMMIT EDITION

For 45 years, Jayco has helped create generations of family fun, and over the course of that time, fun still looks remarkably the same. From campfires to fishing, from relaxing to eating, fun has the same feel generations later—and all with a Jayco RV nearby. Today, we're the largest family-owned RV manufacturer in the world, and our promise is to continually strive to build family-friendly products that will outlast just about everything but your memories. Join us in our generations of family fun.

**On the cover:** The 1987 brochure artwork, illustrated by Tim MacDonald, was part of a successful ad campaign. These illustrations inspired the 2015 Jayco brochure covers, which are live re-creations of Tim's artwork.

**Boasting 36" deep slideouts,*** the 2015 White Hawk is unlike any other ultra lite. It doesn't skimp on space, meaning you don't have to skimp on amenities. So go light. We'll only go heavy on the fun.

## TWICE THE EXPANDABLE LIVING SPACE

Arched interior rafters and deep-wide slides* combine the space you crave with the amenities your family will love in our White Hawk Summit Edition, a top-of-the-line spacious retreat.

**wide slide** [36" deep slideout]*

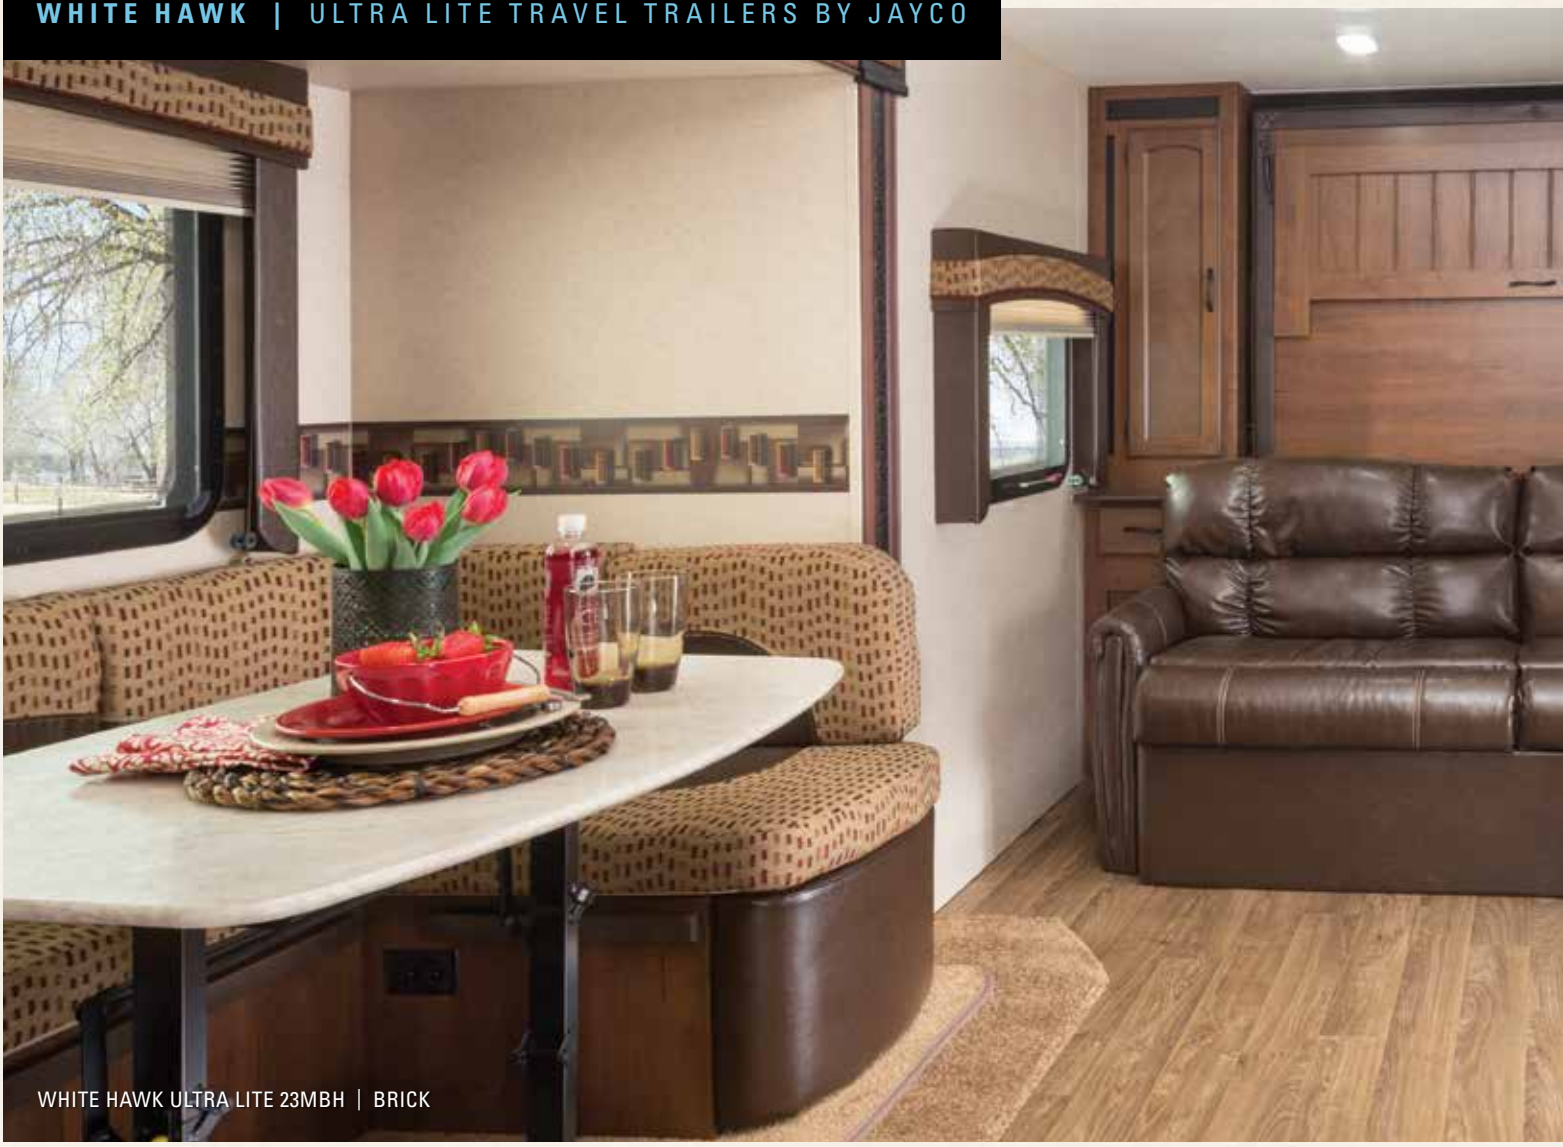

## AND TWICE THE FUN OUTSIDE

At Jayco, we know just how fun the Great Outdoors can be, so we put as much thought into the White Hawk exterior as we do into its well-planned interiors. Starting with an Indoors-Out kitchen,* White Hawk flaunts an exterior refrigerator, microwave and two-burner stove. And to easily get to all your outdoor gear, the Summit Package features slam latch baggage doors on the front pass-thru storage.

*Available on select models

# White Hawk

## Ultra Lite

Load up on fun without weighing yourself down. Thanks to smart design and innovative floorplans, like our Murphy bed model, the 2015 White Hawk Ultra Lite maximizes space so that you can hit the road running in our legendary lightweight, towable by most SUVs.*

* Consult with your authorized automobile manufacturer or vehicle owner's manual; some models require a tow package.

* The weights of certain options and/or option packages are not included in the UVW listed in the specification chart.

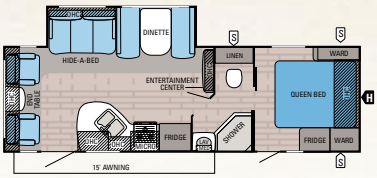

**Unloaded Vehicle Weight (UVW):** Sometimes referred to as "Dry Weight," UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

**Gross Vehicle Weight Rating (GVWR):** GVWR means the maximum permissible weight of the trailer, including the UVW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

**Cargo Carrying Capacity (CCC):** CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

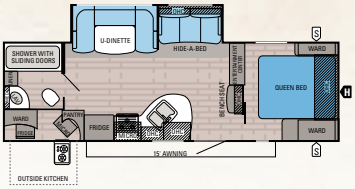

**Hitch Weight (HW):** The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle before heading out on the roadways. When you tow an RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See specifications chart above and left.

* The weights of certain options and/or option packages are not included in the UVW listed in the specification chart.

# WE START WITH ONE OF THE INDUSTRY'S strongest foundations

Jayco builds on custom-sized frames, designed specifically for each floorplan. Other manufacturers use stock frames, stretching and welding the frame to fit.

**Full-width outriggers:** We build on full-width outriggers that are spaced 4-6 feet apart (vs. 8 ft.) to better support the weight of the wall.

**Norco NextGen frame:** White Hawk features the industry's strongest strength-to-weight ratio thanks to a Norco NextGen frame made of high-strength, low-alloy sheet steel, huck bolts and an interlocking design.

**Integrated A-frame:** The A-frame runs through the main frame, preventing the hitch from buckling like competing tack-welded designs.

## so we can build the industry's most reliable RV

## WALL CONSTRUCTION
**lightweight techniques**

1. The walls are vacuum bonded using 15-18 minutes of 144 tons of pressure to ensure a strong bond.
2. Lightweight materials, like welded aluminum frames with metal backers, and White Hawk's innovative, aerodynamic profile increase towability.
3. Extra-wide corner seals on the entry doors, baggage compartment and window seals prevent leaks.

## FLOOR CONSTRUCTION
**made for foot/road traffic**

4. Jayco prides itself on building a solid foundation. Backed by computer monitoring and constant quality control checks, White Hawk's vacuum-bonded floor delivers long-lasting durability.
5. To stand up to family foot traffic, Jayco uses only the best flooring materials, Diamondflor vinyl, a Congoleum product with ArmorGuard that is built to withstand cold, cracks and scratches. Jayco's seamless application keeps flooring intact.

## JAYCO'S ROOF **vs** OTHER ROOFS

4,500 LBS. ON A JAYCO ROOF VS. OTHER ROOFS

## THE MAGNUM TRUSS ROOF SYSTEM
## 50 percent stronger

In a side-by-side comparison test, Jayco's exclusive Magnum Truss Roof System withstood 4,500 lbs. — 50 percent more than other roofs. The difference?

6. Jayco uses 4 1/2" crowned wood trusses, solid-wood studs and oversized nail plates to maximize the roof's load capacity.
7. Then, we screw down 3/8" roof decking at every seam, a process that is more durable than stapled construction.
8. Finally, our one-piece, sidewall-wrapped DiFlex II material provides the ultimate in leak protection.

TO SEE THE SIDE-BY-SIDE ROOF COMPARISON, SCAN HERE WITH YOUR SMARTPHONE.

# WHITE HAWK ULTRA LITE

## STANDARD EXTERIOR EQUIPMENT

Deluxe Graphics Package with Champagne paint-infused fiberglass front wall, back wall and sidewall color band
